The Hee Hee is a five day circumnavigation of Lake Oroville which has 167 miles of shoreline when full. Due to low water, we will not be able to make it up to the end of all the forks but will go until our depth sounders complain.

We will monitor Ch. 16 for the hail, talk on Ch. 68, and may have cell phone coverage when the towers above Bloomers are visible.

Boats Attending (so far) Contact Herb if you want to come, even for a few days.
